October 1992

# Advanced materials for lightweight structures

An international symposium organised  
by the European Space Agency, jointly  
sponsored by CEC and EUREKA and held  
at ESTEC, Noordwijk, The Netherlands  
on 25 – 27 March 1992

**European space agency / agence spatiale européenne**  
8-10, rue Mario-Nikis, 75738 PARIS CEDEX, France

## CONTENTS

### Plenary Session: INVITED PAPERS

- The EUREKA project portfolio in new materials ..... 3  
 MEYER, O., Head EUREKA Secretariat, Brussels, Belgium
- High-temperature materials for hypersonic transport ..... 7  
 KOCHENDÖRFER, R., DLR, Stuttgart, FRG
- Spin-forming: characteristics of a net shape forming process ..... 15  
 MUELLER-WIESNER, D., DASA/MBB-ERNO, Bremen, FRG  
 SIEGER, E., ZMW, Friedrichshafen, FRG

### Session 1A: APPLICATIONS I

- Lightweight CFRP frame structures for a ROTEX-derived manipulator system ..... 21  
 HALD, H., DLR, Stuttgart, FRG
- Application of composite materials for production of nacelle structures ..... 29  
 MCGAREL, W., Short Brothers PLC, Belfast, UK
- Design and development of a CFRP central cylinder for satellites ..... 33  
 JIMENEZ, A., DIAZ.V. & CESPEDOSA, F., CASA, Madrid, Spain  
 RITS, W.J., ESA/ESTEC, Noordwijk, The Netherlands
- An approach to high precision antenna structures by a CFRP core sandwich concept ..... 39  
 ALONSO, A., CUADRADO, A. & BONET, A., CASA, Madrid, Spain  
 STARK, H., ESA/ESTEC, Noordwijk, The Netherlands
- Low cost and thermally stable sandwich design for FIRST ..... 45  
 HELWIG, G. & SIPPEL, R., Dornier GmbH, Friedrichshafen, FRG  
 STARK, H., ESA/ESTEC, Noordwijk, The Netherlands
- Design and manufacturing of filament wound thrust cylinder ..... 51  
 KEMPER, C.A.L., BIRJMOHAN, S.R., Stork Product Engineering, Amsterdam,  
 The Netherlands  
 VISSER, B., Ultra Centrifuge Nederland, Almelo, The Netherlands  
 RITS, W., ESA/ESTEC, Noordwijk, The Netherlands

**Session 1A: APPLICATIONS I (continued)**

- The application of advanced materials to aircraft nacelle structures ..... 57  
 CURRAN, M. & EATON, N.C., Westland Aerostructures Ltd, Cowes (IOW), UK

**Session 1B: DESIGN**

- Design concepts for load-carrying hot structures for re-entry bodies ..... 65  
 TRABANDT, U. & HEITZER, J., Dornier GmbH, Friedrichshafen, FRG
- Hybrid materials for use at elevated temperatures ..... 71  
 VERMEEREN, C.A.J.R., SINKE, J. & TOOREN, M.J.L. VAN, Delft University of  
 Technology, The Netherlands
- Distortions and stresses in thin shells due to anisotropic thermal expansion ..... 79  
 KOENIG, M., University of Stuttgart, FRG
- Numerical simulation and experimental results of filament wound CFRP tubes tested  
 under biaxial load ..... 81  
 AMALDI, A. & MARCHETTI, M., University of Rome 'La Sapienza', Rome, Italy  
 GIANNUZZI, M. & MILIOZZI, A., ENEA, Rome, Italy
- Analytical prediction and test verification of the multiaxial behaviour of high-strength  
 steel for lightweight structures ..... 87  
 AGATONOVIC, P. & CLORMANN, U., MAN Technologie AG, Munich, FRG
- Design with high-strength steel: a case of failure and its implications ..... 93  
 RAHKA, K., Technical Research Centre of Finland, Espoo, Finland
- Development of a fatigue analysis approach for CRFP structures under acoustic  
 loading ..... 101  
 COSTANTINI, S., Sonaca SA, Gosselies, Belgium

**Session 1C: PROPERTIES I**

- Comparison of Al-Fe alloys produced by PFC and USGA techniques ..... 109  
 LEPISTÖ, T.K., KETTUNEN, P. & RAUTIOLA, J., Tampere University of  
 Technology, Finland
- The microstructure and mechanical properties of hot worked FeAl intermetallic  
 alloys ..... 113  
 TASSA, O. & TESTANI, C., Centro Sviluppo Materiali S.p.A., Rome, Italy  
 LEFORT, A., CEREM, Grenoble, France

**Session 1C: PROPERTIES I (continued)**

- Aluminium/lithium forgings: properties and potential satellite applications ..... 119  
 O'BRIEN, B., BHP Laboratories, Limerick, Ireland  
 PRADIER, A., ESA/ESTEC, Noordwijk, The Netherlands
- Mechanical and fatigue properties of fibre-reinforced aluminium/lithium alloy  
 and aluminium/lithium MMC-based laminates ..... 125  
 GREGSON, P., University of Southampton, UK  
 HUNT, E.P., British Aerospace, Airbus Ltd., Filton, UK  
 MORETON, R. & PEEL, C.J., DRA, UK
- Investigations on aluminium/lithium alloys for damage-tolerant application ..... 129  
 ZINK, W., Deutsche Airbus GmbH, Bremen, FRG  
 BARBAUX, Y., CAMACHO, A., PRICE, H., VAESSEN, G., TIRILLY, L.,  
 SCHWANTES, S., BERNICOT, N., PANTELAKIS, S., GRIMES, R., PEEL, C. &  
 T'HART, W., all of different affiliations.
- Mechanical and physical properties of high-modulus carbon-fibre/magnesium-matrix  
 composites produced by moderate-pressure hot-pressing process ..... 135  
 RABINOVITCH, M., DAUX, J., RAVIART, J., VIDAL-SETIF, M., & MEVREL,  
 R., ONERA, Châtillon, France  
 ABIVEN, H. & PELTIER, J.F., Aerospatiale, Les Mureaux, France

**Session 2A: MANUFACTURING/PROCESS**

- Design and manufacturing of CFRP rings by RTM ..... 143  
 JIMENEZ, A. & AYUSO, A., CASA, Madrid, Spain  
 RODRIGUEZ, P., SANZ, A. & GONZALEZ, I., E.T.S., Madrid, Spain  
 GIRARDY, H., GALLET, R. & LA MOTTE, B., Brochier SA, Dagneux, France
- SPF/DB - a manufacturing technique for lightweight structures ..... 149  
 BRODEN, G., Dornier Luftfahrt GmbH, Friedrichshafen, FRG
- Universal adjustable mould for antenna reflectors ..... 155  
 TRABANDT, U., Dornier Deutsche Aerospace, Friedrichshafen, FRG  
 GARCIA PRIETO, R., ESA/ESTEC, Noordwijk, The Netherlands
- Weldability of Maraging steels ..... 161  
 RYBAN, D., Slovak Technical University, Trnava, Czechoslovakia
- Aluminium-beryllium alloys for aerospace applications ..... 165  
 MARDER, J., HASHIGUCHI, D., ASHURST, A.N. & GRENSING, F.C., Brush  
 Wellman Inc., Cleveland, OH, USA

**Session 2B: THERMOPLASTICS**

- Deformation mechanisms of continuous fibre-reinforced thermoplastic composites during manufacturing: a probabilistic approach ..... 173  
 BOFILIOS, D., INASCO Hellas, Moschato-Athens, Greece  
 ENDE, C.A.M. VAN DEN, KEMA N.V., Arnhem, The Netherlands
- Heat analysis of thermoplastic components during the initial stages of manufacturing: a probabilistic approach ..... 179  
 BOFILIOS, D., INASCO Hellas, Moschato-Athens, Greece  
 LOCHEM, J.H. VAN, KEMA N.V., Arnhem, The Netherlands
- Cost effectiveness of structural applications of fibre-reinforced thermoplastics ..... 185  
 WERNER, W., Dornier Luftfahrt GmbH, Friedrichshafen, FRG
- Application of advanced thermoplastics ..... 191  
 OFFRINGA, A., Fokker Special Products BV, Hoogeveen, The Netherlands
- Low-cost thermoplastic composites for structural applications: design concepts using new materials and processes ..... 197  
 WENMAKERS, L.E.P., GAALMAN, A.E. & MARISSSEN, R., DSM Research, Geleen, The Netherlands
- Tape winding of the thermoplastic composites ..... 203  
 LAHTEENKORVA, K., PELTONEN, P., JÄRVELÄ, P. & TÖRMÄLÄ, P., Tampere University of Technology, Finland

**Session 2C: NONDESTRUCTIVE TEST/INSPECTION**

- Special problems of 3-D ultrasonic QNDI techniques and applications to composite aerospace structures ..... 209  
 SALA, G. & ANGHILERI, M., Politecnico di Milano, Italy  
 ANTONIAZZI, A., Centro Sviluppo Applicazioni, S. Donato Milanese, Italy
- Design of inspection and acceptance test methodology for TIG welded aluminum alloy bracket for camera housings for IRS-1A spacecraft and executing it ..... 217  
 VAGHMARE, R., MANGLIK, V.K. & SHAH, A.K., ISRO, Ahmedabad, India
- Quantifying disbond area ..... 223  
 LOWDEN, D.W., RGIT, Aberdeen, UK
- New X-ray scanning topographic approaches to nondestructive evaluation of composites ..... 229  
 HENTSCHEL, M.P., HARBICH, W. & LANGE, A., BAM, Berlin, FRG

**Session 2C: NONDESTRUCTIVE TEST/INSPECTION (continued)**

- Application of the infrared photoacoustic spectroscopy to the study of the cure mechanisms of structural epoxy adhesives ..... 233  
 COPPEE, J., SONACA S.A., Gosselies, Belgium

**Session 2D: CERAMIC MATRIX COMPOSITES & CARBON/CARBON**

- Fibre-reinforced ceramic components by filament winding for intermediate temperature applications ..... 241  
 OSTERTAG, R. & TRABANDT, U., Dornier GmbH, Friedrichshafen, FRG
- An ultra-light carbon-carbon composite with amorphous matrix ..... 245  
 KETTUNEN, P.O., GU, Q. & LEPISTO, T.K., Tampere University of Technology, Finland
- New processes for lightweight ceramic matrix composites ..... 249  
 MÜHLRATZER, A., HANDRICK, K., KÖBERLE, H. & PEETZ, K., MAN Technologie AG, Munich, FRG
- Ceramic matrix composites: high-performance materials for space application ..... 255  
 HYDE, A.R., GEC ALSTHOM Engineering Research Centre, Stafford, UK

**Session 3A: APPLICATIONS II**

- Spin-rolling, welding and heat treatment of aluminium 2219 for Ariane 5 GAM high-pressure vessel liners ..... 263  
 RADTKE, W., MAN Technologie AG, Munich, FRG
- Stress relaxation forming of Ariane 5 front skirt outer skin panels ..... 267  
 RADTKE, W., MAN Technologie AG, Munich, FRG
- Development tests for a high-stability optical bench ..... 271  
 OZORES, E., AREVALO, F., AYUSO, A., BONET, A. & LAREO, S., CASA, Madrid, Spain  
 PRADIER, A., ESA/ESTEC, Noordwijk, The Netherlands
- On the mechanical development of the flexible external insulation (FEI) for Hermes spaceplane ..... 277  
 BOLZ, J., Deutsche Aerospace/ERNO Raumfahrttechnik GmbH, Bremen, FRG
- Material advances for lightweight TPS ..... 285  
 RIECK, U. & KAMPMANN, L., ERNO Raumfahrttechnik GmbH, Bremen, FRG

**Session 3A: APPLICATIONS II (continued)**

- Vectra insulative support structures within spacecraft ..... 291  
 NAYLER, G.H.F., British Aerospace, Space Systems Ltd., Filton, Bristol, UK

**Session 3B: DESIGN/JOINING**

- Design evaluation of Glare laminate lay-ups ..... 301  
 PENDUS, A., ELANGO VAN, P.T. & MINDERHOUD, P., Fokker Aircraft BV,  
 Schiphol, The Netherlands
- Joints between dissimilar metallic and ceramic materials ..... 307  
 BASHFORD, D., BNF-Fulmer, Wantage, Oxon, UK
- Introducing SMaSE: an aide memoire on structural materials and space engineering ..... 315  
 WILSON, J., BNF-Fulmer, Wantage, Oxon, UK
- A new and efficient way to join composite pipes ..... 321  
 LAHTINEN, H., AUTIO, M., SJOLIND, S.-G. & PRAMILA, A., University of  
 Oulu, Finland
- Structural material, manufacture and design requirements for high-temperature  
 fasteners for spaceplane technologies ..... 325  
 AGATONOVIC, P. & DOGIGLI, M., MAN Technologie AG, Munich, FRG
- Perforated plates for thin-walled structures ..... 333  
 DRDÁCKÝ, M. & LESÁK, J., Czechoslovak Academy of Sciences, Prague,  
 Czechoslovakia
- Advanced methods of permanently joining carbon materials ..... 339  
 ANIKIN, L.T., DEMIN, A.V., KRAVETSKIY, G.A. & KOSTIKOV, V.I.,  
 NIIGRAFIT, Moscow, Russia

**Session 3C: PROPERTIES II**

- Investigation of the reason for the softening behaviour of filled polymers ..... 345  
 HÜBNER, C. & AKSEL, N., Fraunhofer-Inst. für Chem. Technologie, Pfinztal,  
 FRG
- PM technology and mechanical properties of metallic foams ..... 351  
 GÜNTHER, B., BAUMEISTER, J., BANHART, J. & WEBER, M., Fraunhofer  
 Institute for Applied Materials Research, Bremen, FRG

**Session 3C: PROPERTIES II** (continued)

Constitutive laws for describing the service relevant creep behaviour of metallic materials .....	355
AGATONOVIC, P., MAN Technologie AG, Munich, FRG	
CHURCH, J.M. & HURST, R., Institute for Advanced Materials, Petten, The Netherlands	
Étude du comportement tribologique de couples céramiques SiC et Si <sub>3</sub> N <sub>4</sub> en fonction de la température: la réalité .....	361
PLATON, F., E.N.S.C.I., limoges, France	
BERTHIER, Y., I.N.S.A., Villeurbanne, France	
High-temperature composites in aerospace activities .....	367
MACRET, J.L. & LAUTISSIER, P., Aerospatiale, St Médard-en-Jalles, France	
Structure and properties of an RS Al-Si-Ni-Mn-Zr alloy for high-temperature applications .....	373
ROVEN, H.J. & JENSEN, B., The Norwegian Inst. of Technology, Trondheim, Norway	
JOHANSEN, I., SINTEF, Trondheim, Norway	
JENSRUD, O., RAUFOSS AS, Raufoss, Norway	
Fibre-reinforced structures with glass matrix .....	379
FRÖVEL, M., DLR, Braunschweig, FRG	

**Plenary Session: SMART STRUCTURES**

Multiplexed and distributed optical fibre sensors .....	385
DAKIN, J.P., University of Southampton, UK	
Fibre optic strain and temperature measurement in composite materials — a review of the OSTIC programme .....	393
CULSHAW, B. & MITCHIE, C., University of Strathclyde, Glasgow, UK	

**Poster Session**

The Netherlands innovation-oriented research programme on polymer composites and special polymers (1985-1993) .....	401
HALEN, C.J.G. VAN, StiPT, Ministry of Economic affairs, The Hague, The Netherlands	

**Poster Session** (continued)

Solving the essentials of an innovative tennis racket product: functionality, simplicity and super-lightweight technology .....	403
SCHLENKER, E., CAE-FEM Engineering, Stuttgart, FRG	
LAMINV: a computer code for creating laminates having prescribed properties .....	407
AUTIO, M., LAITINEN, M. & PRAMILA, A., University of Oulu, Finland	
Concluding remarks .....	415
EATON, D.C.G., ESA/ESTEC, Noordwijk, The Netherlands	
Keyword index .....	419
